Process Evaluation and Baseline Study on the CHED K to 12 Adjustment Assistance Program

1. Background and Rationale

The CHED established the K to 12 Transition Program in late 2015, with the goals of mitigating adverse impacts on labor, and upgrading the qualifications of faculty. The Program effectively leverages the transition period to invest in the future of higher education, particularly through the following activities: (a) program for faculty and staff transferring to SHS; (b) graduate studies; (c) faculty development grants; (d) staff development grants, (e) innovation grants for HEIs, (f) materials development and training; and (g) program for small HEIs in collaboration with TESDA and DepEd.

For faculty and staff who will experience a lower workload during the transition to K to 12, the CHED designed the following development packages: (1) Scholarships for graduate studies and short-term training for professional advancement, (2) Development grants for faculty and staff, and (3) Innovation grants for institutions. The Program targets to give 15,000 scholarships (8,000 master's degrees and 7,000 doctorate degrees) to HEI personnel, while those who are not able to study full-time may avail of grants for activities such as retooling, research, community service, and industry immersion. Innovation grants are also available for institutions for funding the upgrading of their programs through international and industry linkages, research, and development of priority or niche programs.

The Philippine Institute for Development Studies (PIDS) seeks to procure the consultancy services of a Consultant as Co-Principal Investigator to provide technical and project management assistance to the Project Director in the conduct of this study.

2. Objectives

This study will do a review of the extent of implementation of the program and do preparatory work for its subsequent impact evaluation. Specifically, it will have the following objectives:

- I. Conduct a process evaluation of the implementation of the program
- II. Develop an impact evaluation design for the program
- III. Do a baseline study in preparation for impact evaluation.

The Co-Principal Investigator will assist the Project Director in the supervision and conduct of the baseline data collection and process evaluation.

3. Scope of Work

The baseline survey will collect data on HEI faculty and staff participants of the K to 12 Transition Program. The sample of Program participants will be determined by the Project Director and Co-Principal Investigator. The contact details on the sample to be surveyed will be derived from the aggregation of databases from the CHED K to 12 Transition Program implementers.

To carry out this work, PIDS will engage the services of a Consultant with expertise in Development Economics or Population and Demography. Under the guidance and technical oversight of a PIDS Senior Research Fellow who serves as Project Director, the Consultant shall be the Co-Principal Investigator for this study. He/She is expected to work with the Project Team and provide technical assistance in the conduct of the following tasks:

1. Design survey instruments and tools;
2. Assist the Project Director in the development of evaluation framework and tools;
3. Co-write with the Project Director the process evaluation report and the baseline report, including Policy Notes and Discussion Papers as required of the Project;
4. Conduct one research seminar at PIDS in order to present the results of the study and get feedback;
5. Supervise the planning and organizing of Project related activities, including meetings, workshops, and trainings/orientations;
6. Coordinate with all units at PIDS, as well as the Survey Firm on Project activities, including the management and documentation of all data collection activities for the efficient implementation of the project;
7. Manage and supervise the day-to-day operations of the project team;
8. Supervise the Research Associates and Assistants in their technical and administrative tasks; and
9. Other related tasks that may be assigned by the Project Director.

4. Qualifications of the Consultants

The Consultant should have the following qualifications:

- Ph.D. in Economics or Development Economics or Population and Demography or Statistics
