PIDS provides analyses of socio-economic problems and issues in aid of plans and policies formulation for sustained social and economic development.

PIDS is the policy think tank of the government. It undertakes studies that are responsive to current and emerging needs of policy and decision-making.

* Only 50% of the said PI was met due to increased involvement of PIDS in other activities (i.e. conduct of fora). However, this PI is not very critical to the attainment of the agency's mandate.
