

KEY TAKEAWAYS

**Dr. Kim Patrick Tejano, National Immunization Program (NIP) Manager, Medical Officer IV,
Disease Prevention and Control Bureau, Department of Health**

- More studies are needed to evaluate vaccine supply chain and cold chain management to inform and guide policy makers.
- NIP is starting to take actions to address supply-side concerns.
- NIP maintains its engagement with professional societies, NGOs, private sector, other NGAs and LGUs, and shall reach out to other stakeholders, to ensure whole-of-society, whole-of-government, whole-of-system approach in ensuring eligible populations are vaccinated.
