11. Ancestral Domain Defense System

In the general, if the 11 blocks are not implemented properly NCIP's reason to exist will cease & the IPs lives, beliefs, institutions, spiritual well-being and the lands they own, occupy and use will negatively be affected.

Support in the implementation of the 11 building blocks will bring to fruition the purpose of the enactment of the IPRA-correcting historical injustice and the recognition, respect, protection and promotion of ICC/IP rights

It also emphasizes that ADs are privately owned by ICCs/IPs and cannot be sold, disposed or destroyed, and that ICCs/IPs have the right to manage the same in accordance with their customs, traditions and institutions.
