PIDS-DOH-PHIC TECHNICAL ASSISTANCE ON THE UHC PROVIDER PAYMENT REFORMS IN 2023: Development of Diagnosis-Related Group (DRG) payment rates and Provider Payment Mechanism Monitoring and Evaluation Framework for PhilHealth¹

I. Background and Rationale

With the enactment of the Universal Health Care law, the Philippine Health Insurance Corporation (PhilHealth) has been empowered to be the national strategic purchaser of individual-based health services. A critical health provider payment mechanism (PPM) reform that PhilHealth must implement under the Universal Health Care (UHC) Law is the Diagnosis Related Groupings (DRGs). The DRGs are a step forward to move the current all-case rate system from retrospective payments based only on service outputs to value-based payments that incentivize quality, efficient, and equitable care and improve health at lower costs for the health sector and patients.

Moreover, such complex reform requires that PhilHealth maintain the DRGs and other PPM systems over the long-term. This requires improving PhilHealth data quality and monitoring frameworks and plans to evaluate whether these reforms achieve its goals for value-based purchasing. On both these fronts, PIDS will be assisting PhilHealth in the development of DRG payment rates and the monitoring and evaluation framework for the DRGs and future PPMs.

II. Objectives

A. DRG Rate-Setting Analysis

1. Document the process for and calculate DRG v0 base rates, charge weights, adjustment factors, economic homogeneity metrics, complexity level evaluation, hospital case mix distributions, and financial impact of DRGs to PhilHealth and providers.
2. Identify recommendations to enable PhilHealth to adopt and use the Thai DRG to pay hospitals in the near future (i.e., DRG version 1)

B. Monitoring and Evaluation

3. Craft a monitoring framework and plan for assessing the effects of DRG and other PPM reforms on the quality, efficiency, and equitability of hospital care.
4. Using hospital statement of accounts / itemized billing data:
