**TERMS OF REFERENCE**

**Research Associate/Technical Assistant for the  
External Review of the Development Academy of the Philippines (DAP): Part 1  
(Organizational Impact)**

**1. Background and Rationale**

The Development Academy of the Philippines recently celebrated its 50th year of existence with hundreds of programs and projects implemented that aim to capacitate the government organizations and individuals to perform their respective mandates, functions, roles and responsibilities in delivering their services. The DAP provides its services through education, training, technical assistance, and research.

In assessing the continuing relevance and impact of the Academy, an assessment of the DAP as an organization will be conducted mainly to fully understand the various outcomes, contributions and impact of the DAP as an institution and its programs and services to its clients, to the bureaucracy, and to the Philippine government as a whole consistent with the Ambisyon 2040, Philippine Development Plan (PDP) 2023-2028, Bagong Pilipinas, and other relevant national development agenda and goals.

The findings and recommendations from the assessment will serve as a guide in making informed decisions about the Academy's existing capacities and competencies, as well as on the sustainability of its operations and programs. The data-driven insights from the study on the DAP as an organization will be vital in identifying its strengths and weaknesses in current plans, policies, structure, programs and services, operations including systems and processes, and financial position which will serve as inputs to the Academy's future directions. Furthermore, DAP also hopes to be able to make the best decisions to better adapt its programs and services to its changing operational environment, meet client needs and enhance their overall experience out of this endeavor.

In view of the foregoing, the DAP seeks to partner with the Philippine Institute for Development Studies in conducting the external review to ensure a thorough and objective approach on this evaluation study.

**2. Objective of the Consultancy**

The Study has two Parts. Part 1 examines DAP's relevance and coherence as an institution and the effectiveness of its activities. Part 2 assesses DAP's organizational efficiency and effectiveness and sustainability, specifically its financial stability and viability in relation to current and future business model.

This TOR covers mainly Part 1 of the Study. For this, the PIDS intends to engage a Research Associate/Technical Assistant - consultant to provide technical assistance in the conduct of the study.

### 3. Objectives of Part 1 Study

The study will assess the relevance and coherence of DAP as an institution and the organizational impact of its programs and services to its clients and/or stakeholders (public and private) and to the entire bureaucracy and the Philippine Government. Specifically, the objectives of this study are as follows:

1. Determine the relevance of the DAP as an institution and its role in providing innovative and synergistic solutions to address the country's broad-based policy and socio-economic concerns;
2. Ascertain the DAP programs and services that are effective in improving governance and productivity in the bureaucracy; and
3. Assess current and future gaps to define the DAP's future directions, program priorities and opportunities to improve its role as the country's development academy.

The study also aims to identify the strengths and weaknesses of its programs and services and the competencies of the DAP as a knowledge organization. The findings and recommendations of the assessment should provide inputs to DAP's strategic directions and future role.

### 4. Scope of Work, Deliverables, and Schedule of Payment Releases

Under the guidance and technical oversight of the PIDS President, and of the Vice President who serves as the Project Director, the Consultant<sup>1</sup> will be assigned as **the Research Associate/Technical Assistant for Part 1, focusing on the organizational impact aspect of the assessment**. He/ She is expected to work with the Project Team and undertake the following tasks/activities<sup>2</sup>

1. Assist the Lead Investigator and the study team in the design of the framework, methodologies, approaches, and tools in conducting the assessment of the DAP as an organization.
2. Assist the Lead Investigator and the study team in the comprehensive review of the following:
  - a. Charters and mandates of the DAP including its plans, governance policies, standards, systems, programs and services and business strategy
  - b. Studie/Reports on the effectiveness of DAP programs and services
  - c. Current and future gaps related to strategy formulation, coverage and relevance, competitiveness and niche market for DAP
3. Assist the Lead Investigator and coordinate with the study team and Project Manager in organizing/scheduling and in the conduct of the following primary data collection activities:

---

<sup>1</sup> The consultant may be an individual or a firm.

<sup>2</sup> If the consultant needs to undertake physical/face-to-face interviews and data collection and related activities, the consultant has to ensure compliance with existing and future policies, rules, and resolutions as may be issued by concerned government agencies pertaining to health and safety.

- a. Interviews, focus group discussions (FGDs), or survey to gather feedback from the DAP’s top management, clients/government offices, and other key stakeholders
  - b. Conduct KIIs/FGDs with public and private organizations/institutions offering similar programs and services
4. Document the discussion and key points raised during the interviews and consultation sessions with stakeholders.
  5. Assist in the preparation and synthesis of the deliverables following the agreed-upon timelines and using the prescribed format/templates of PIDS.
  6. Assist the Lead Investigator in the presentation of the results of the study to the PIDS team, DAP Board of Trustees, and DAP Senior Management.
  7. Sign a Non-Disclosure Undertaking with PIDS. Any information gathered and generated in the implementation of the project shall be processed subject to the applicable provisions of the Republic Act No. 10173, known as the “Data Privacy Act of 2012” and its Implementing Rules and Regulations and relevant issuances of the National Privacy Commission (NPC).
  8. Others as may be assigned by the Project Director/Principal Investigator.

The Consultant will prepare the following outputs based on the schedule below:
