Digital Governance Initiatives

National ICT Development Agenda

Pursuant to RA 10844, the Department of Information and Communications Technology as part of the executive branch of the government mandated to plan, develop, and promote the National ICT Development Agenda.

Digital Government Masterplan 2023-2028

Pursuant to the National ICT Development Agenda and the directives of the current Administration to develop plan and promote digital transformation across all sectors in the government.

NATIONAL ICT DEVELOPMENT AGENDA

serves as a blueprint in creating a vibrant ICT ecosystem through leveraging the power of information and communication technology in advancing nation-building, good governance, and global competitiveness. It aims to provide ICT Strategic direction aligned to the local and International Commitments of the country and the directives of the current administration.

NICTDA aims to pursue six (6) ICT Development Agenda:

- **Digital Connectivity**
- **Digital Transformation**
- **Digital Inclusivity**
- **ICT Resiliency & Sustainability**
- **Strategic Partnership**
- **Digital Ecosystems Development**

CHALLENGES

Policy and Regulatory Framework

- Infrastructure and Connectivity
- Digital Divide and Inclusion
- Privacy and Data Protection

Environmental Sustainability

- Digital Skills Disparity
- E-Government Services
- Geopolitics of Technology

AGENDA 4.0 ICT RESILENCY & SUSTAINABILITY

Objectives	Target	Enabling Strategies
-Update existing plan, policies, and regulatory framework related to the emergency response, climate change, and cybersecurity across the country	Limit negative impacts of digitalization towards the environment.	Strategize ICT infrastructure to mitigate environmental impacts. Promote renewable sources of energy towards ICT infrastructure.
-Utilize modern ICT infrastructure to mitigate risk and negative impact of electronic waste and climate change	Reduce carbon footprint brought by ICT equipment and e-waste	Established monitoring mechanism of e-waste management Update existing policies on the use of electronic waste in the country Establish an e-waste facility to regulate and recycle e-waste materials

DIGITAL GOVERNMENT MASTERPLAN 2023-2028

The Digital Government Masterplan (DGMP) 2023-2028 seeks to harmonize and coordinate all ICT initiatives to optimize available government ICT resources, encourage information and resource-sharing and database-building, and ensure the development and protection of an integrated government ICT infrastructure.

The DGMP 2023-2028 shall focus on the convergence programs intended to equip the national government with the necessary technologies and skills to achieve a digitally-enabled administration capable of delivering efficient, fast and quality basic services which cut across the whole-of-government.

Digital Governance Transformation Architecture Framework

Matatag, Maginhawa at Panatag na Buhay
AmBisyon Natin 2040

Robust Economy, Inclusive and Resilient Society
Philippine Development Plan 2023-2028

The Philippines at the Forefront of the Global Digital Economy
National ICT Development Agenda

DIGITALLY TRANSFORMED PHILIPPINE GOVERNMENT
