July 15, 2024

#### Study 1:

Networks in upland farming communities: Structure, central actors, and access and utilization to weather and climate information

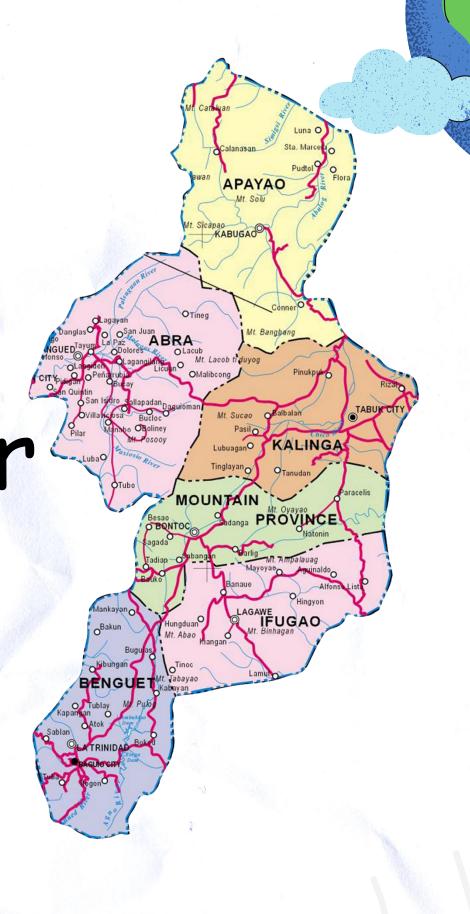

#### Study 2:

### Analyzing Resilience of Vegetable Farmers in Upland Areas

#### Trivia!

July 15 is Cordillera Day

• July 15, 2024 marks the 37<sup>th</sup> anniversary of Executive Order 220 issued on July 15, 1987 which created the Cordillera Administrative Region.

#### Discussion focus:

The extension environment at the municipal local government unit and its implications in the delivery of extension services.

#### Extension services

"Extension Services" refers to the provision of training, information, and support services by the government and non-government organizations to the agriculture and fisheries sectors to improve the technical, business and social capabilities of farmers and fisherfolk.

Section 4, RA 8435

#### Extension major services

Agriculture and Fisheries extension services shall cover the following major services to the farming and fishing community:

- a. Training services;
- b. Farm or business advisory services;
- c. Demonstration services; and
- d. Information and communication support services through tri-media.

Section 87, Chapter 2, RA 8435

# The role of Municipal LGUs in extension services as per RA 7160 or The Local Government Code of the Philippines.

Chapter 2. - General Powers and Attributes of Local Government Units
Section 17. Basic Services and Facilities

#### Section 17. Basic Services and Facilities

- (2) For a municipality:
  - Extension and on-site research services and facilities related to agriculture and fishery activities which include dispersal of livestock and poultry, fingerlings, and other seeding materials for aquaculture; palay, corn, and vegetable seed farms; medicinal plant gardens; fruit tree, coconut, and other kinds of seedling nurseries; demonstration farms; Section 17, Chapter 2, RA 7160

#### Section 17. Basic Services and Facilities

- (2) For a municipality: (cont'd)
- (i) xxx...quality control of copra and improvement and development of local distribution channels, preferably through cooperatives; inter-Barangay irrigation system; water and soil resource utilization and conservation projects; and enforcement of fishery laws in municipal waters including the conservation of mangroves;

Section 17, Chapter 2, RA 7160

The role of Municipal LGUs in extension services as per RA 8435 or the Agriculture and Fisheries Modernization Act of 1997

RA 8435 Chapter 2 Extension Services, Section 90. The Role of Local Government Units

The LGUs shall be responsible for delivering <u>direct agriculture and</u> fisheries extension services.

# The Organizational Structure of the Municipal Municipal Agriculture Office of Atok, Benguet

#### Atok at a glance...

Number of barangays: 8

Total land area: 18,878.56 hectares

DBM Manual on Position Classification and Compensation Chapter 9 Position Classification and Compensation Scheme in Local Government Units, and DBM LBC No. 149 January 10, 2023

### Policy Advocacy: Passage of the Magna Carta for Agriculture Extension Workers Bill

# Policy Advocacy: Support the Province-led Agriculture and Fisheries Extension Systems (PAFES)

### Province-led Agriculture and Fisheries Extension Systems (PAFES)

PAFES shall serve as the institutional arrangement in pursuing the full devolution of AFE services to LGUs, integrating the implementation of agriculture and fisheries programs and related support services at the provincial level. It further aims to strengthen the capability of LGUs to plan and implement multiple agriculture and fisheries programs with the province as the center for operations given the full devolution of AFE services to LGUs.

PAFES Operations Manual (Department of Agriculture, 2022)

### A note on enhancing ICT infrastructure in the Atok

The study observations on the very poor mobile phone signal in Atok can be taken as a reflection of the mobile and internet connectivity situation of most rural communities in CAR

PAFES Operations Manual (Department of Agriculture, 2022)

#### Conclusion

- The delivery of Climate Information Services as part of the bigger extension services is becoming more vital and urgent.
- The role of Agricultural Extension workers at the municipal LGUs in the delivery of these services becomes increasingly vital as the effects of climate change become more evident among farming communities.
- The multifaceted and pluralistic nature of extension can be further explored to maximize the potential of other stakeholders particularly the nonformal ones.
